

A Patient-Centered Medical Home is a partnership between the patient and their physicians

By choosing to participate in a Patient Centered Medical Home, I agree to:

- Make sure my doctor knows my entire medical history
- Tell my doctor all of the medications I am taking
- Actively participate with my doctor in planning my care
- Keep my appointments as scheduled
- Follow my doctor's recommendations
- Ask my doctor questions about things I do not understand
- Ask other health care providers to send my doctor information such as lab or test results, x-rays, or treatment notes.
- Understand my insurance, what it covers and update the office with changes
- Provide the office feedback on how they can improve my care

Being part of a Patient-Centered Medical Home Neighborhood, your Specialists will:

- Communicate with your Primary Care Physician about treatment plans, medications, tests ordered and test results
- Support the treatment plans and health goals set by your Primary Care Physician
- Have an agreement with your Primary Care Physician regarding who will have the lead responsibility for your care if a chronic disease exists
- Have same day appointments available for an urgent problem and appointments within 1-3 weeks available depending on your medical needs
- Work with your Primary Care Physician to coordinate all aspects of your care
